

Step 1

On the Main page select **FM** button located at the top right hand side of the SR10.1 Remote

Note! Using the SR10.1 Remote to select a tuner frequency for the Reference 50 Preamp Processor or the AVR507

Step 2

To go directly to a Tuner Frequency

- A. Select **FM** Button
- B. Select Frequency Number ex. if station frequency is 103.3, just enter the numbers 1 0 3 3

To search for a Tuner Station Frequency

- C. Select either the **Tune +** or the **Tune -** Buttons

Note! Same procedure for AM. Select AM in place of FM.
